Advanced Probiotics

I can't believe the power of this product.

I had what I believed to be a vaginal infection for a couple of days and as I hate going to the doctor decided to treat myself by breaking open a ProBiotic capsule and adding it a small amount of live yogurt then using it internally.

I normally take one capsule twice a day but I also then took an extra three capsules twice that day. The next day the infection had completely gone and I have been clear ever since.

I was really impressed and would certainly recommend that anyone who suffers from any infection should try using ProBiotic before visiting their doctor.

Kathleen Joyce

I couldn't sleep...

For years I had survived on four to five hours sleep a night and was up at 5am wide awake and unable to get back to sleep. Headaches, tiredness and poor eyesight were all symptoms and when Advanced ProBiotic was launched I was 'first in the queue' to try it to see how it would help with my diabetes. I didn't give my insomnia a thought.

Well my blood sugar readings dropped a full point which is fantastic for me, I started to lose weight and stopped feeling bloated but amazingly as I increased the dosages I began to enjoy a full night's sleep. I started going to bed at midnight instead of 1am and slept through to seven thirty and eight o'clock. Headaches became thing of the past, my eyesight became clearer and my energy levels shot through the roof!

Added to my daily regime of Maximol Solutions, Revenol and Omega 3 I am just so glad I discovered the power of Advanced ProBiotic and judging by the number of customers who have a repeat monthly standing order they are enjoying their results too!
